

Abstract

Customized online processing of abstracts

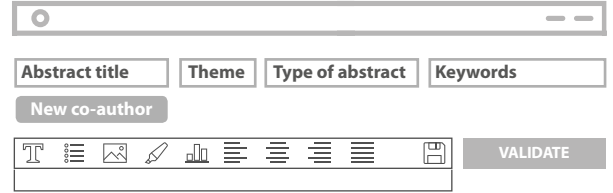

1

Unify abstracts submission

A submission process

- Customize the webform, textfields, equation, tables, figures, topics, subtopics, keywords, types
- Define your own rule, mandatory fields, submission period, reviewing period, scoring methods
- Handle the submissions and the invited abstracts

2

Collect

Unify and simplify the collection of abstracts during a period

4

Allocate & Notify

- Notify by email accepted and rejected authors
- Assign easily accepted abstracts in the programme(create presentation and link to abstract)

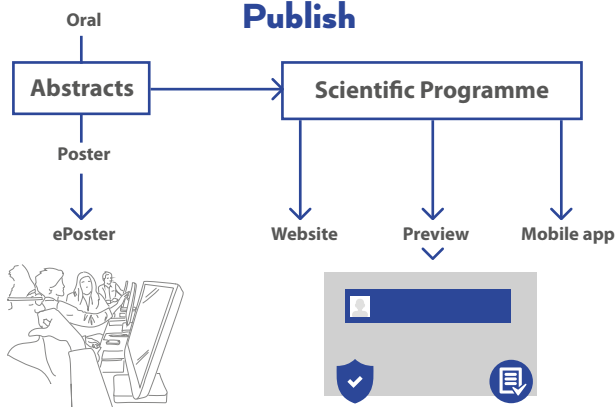

3

Review

- Assign the reviewers to abstracts automatically or not (by different criteria)
- Notify your reviewers
- Conflict of Interest management
- Scoring and ranking (multiple options)
- Propose accepted and rejected abstracts
- Transfer abstracts to other reviewer

5

Publish

100 % compliant and scalable with different process and organization

All in one centralized tool

Reduce errors and time consuming tasks

Control and monitor each phase of the process

Integration with other key4events solutions (ePosters, preview, mobile app, etc)

- Publish abstracts in:
 - Personal space of submitter
 - Online programme (website)
 - Abstracts book (PDF)
 - Mobile app
 - ePosters
 - Manage embargo date
